

## California Proposition 65 Statement

### **WARNING:**

This product can expose you to chemicals including nickel and/or lead, which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

### **What is California Proposition 65?**

Also known as the Safe Drinking Water and Toxic Enforcement Act of 1986, California Proposition 65 is a law that requires warning to consumers if a product exposes consumers to a wide variety of chemicals known by the State of California to cause cancer, birth defects and/or other reproductive harm. Proposition 65 applies only in California.

### **What does the Proposition 65 Warning mean?**

A Proposition 65 warning means that the business issuing the warning knows that one or more listed chemicals is merely present in its product. A warning must be given unless a business demonstrates that the exposure it causes poses “no significant risk.”

### **Why does CompX International place a Proposition 65 warning on its products?**

A Proposition 65 warning means one of two things: (1) the company evaluated the exposure and has concluded that product exceeds the “no significant risk level”; or (2) the company has chosen to provide a warning simply based on its knowledge about the presence of a listed chemical without attempting to evaluate the exposure.

Out of an abundance of caution, **CompX International** has elected to place the Proposition 65 warning on its products in its STOCK LOCKS bag distribution program.

**CompX International** believes its products are not harmful when used as designed but takes this law very seriously. **CompX International** is committed to providing high quality products that are safe for our customers.
